

Teacher of Design & Technology and Industrial Technology

Mission Statement

Scots All Saints College is a Presbyterian, coeducational day and boarding school, Pre-kindergarten to Year 12, providing a quality education in a secure and supportive Christian environment.

We encourage each student to develop their academic ability and social skills.

We provide for spiritual awareness and co-curricular experience to allow students to develop their academic ability and social skills.

We empower students to pursue success in all their undertakings to prepare them for a life of contribution.

Curriculum

- Ensure classroom practice is in keeping with the classroom expectations for staff at Scots All Saints College
- Ensure there is a clearly defined program of learning
- Ensure that the curriculum is properly differentiated
- Ensure that the learning outcomes are clearly defined, with clear criteria relating to the School's assessment and reporting policy
- Develop attainment targets for each student in relation to benchmark test results and any previous knowledge about the student's capabilities
- Implement the requirements of NESA
- Maintain student attendance records for each lesson
- Monitor the quality of student homework and student's compliance with the School's homework policy
- Prepare lesson plans that are in line with teaching programme and curricular objectives
- Maintain appropriate records for students' assessment
- Maintain effective communication with students and parents
- Complete student reports each term
- Keep senior staff appraised of any issues involving students – academic or pastoral
- Organise relevant excursions, competitions or other such activities

Other Responsibilities

- Actively contribute to the School's co-curricular program through involvement in coaching sport and/or other co-curricular offerings
- Undertake playground duty or bus duty as rostered
- Undertake lesson covers for absent staff as required
- Attend weekly Senior School Assembly and Chapel
- Attend other after hours events as required of all academic staff

Qualifications and Skills

- A minimum four year recognised teaching qualification including a Bachelor's Degree and Teaching Diploma or a Bachelor of Education
- A minimum of 3 years Full Time teaching experience in a recognised educational institution ideal, however graduates may be considered
- A demonstrated ability to foster quality Design & Technology and Industrial Technology education both within the classroom and the wider school community
- The ability to work in a team within a busy and vibrant Technology Department and to be flexible within these demands
- The ability to teach Information Technology
- The ability and willingness to set high standards
- Excellent communication skills, multi-tasking and time management
- The ability to work as part of a team and an interest in participating in the wider school community
- A willingness to actively support the Christian teaching and ethos of the School
- Be able to work to deadlines
